Profile

I have been working with web development since 2020, and I am knowledgeable in user interface, testing, and debugging processes. I am a driven and self-motivated professional who likes to solve problems.

By combining a passion for usability and user experience with technical knowledge, I create client friendly and efficient digital experience with attention to detail. I Strive to bring a collaborative spirit that enables the smooth functionality of cross functional teams.

SOFTWARE DEVELOPMENT EXPERIENCE

Tic-tac-toe

General Assembly Australia

Built a simple version of the famous tic-tac-toe aka noughts and crosses. It was completed using HTML/CSS and JavaScript.

Football preview

General Assembly Australia

An application that allows users to stay on top of their favourite Premier League teams. Primarily designed for the 2020-21 Premier League session. You can see the leader board, highlights, and team details. The app was completed using Ruby on Rails and various APIs

slackMe

General Assembly Australia

Built a simple version of slack clone which was completed in a group of four. It was completed using React for the frontend and firebase for the backend

zeLibrary

General Assembly Australia

Search millions of books, select titles to add to your own personal virtual bookshelf, record your thoughts about each book and check what others are saying about this book.

PROFESSIONAL EXPERIENCE

Voice Picking

Coles & Woolworth CDC

- Pick items/goods using different machines such as pallet jacks, electric pallet trucks and GPCs
- Invoice and dispatch orders
- Assist new recruits with learning and developing essential warehousing skills

Fault Testing

Samsung Group

- Test returned household appliances such as fridges and microwaves
- Work in teams to write a report of the testing results
